

# SPATIUM simulation

Prendo's Spatium simulation, developed with the Major Projects Association, provides an intense but risk-free experience of leading a project

The "whole project in 1 day" simulation is used in online, classroom, project start-up and assessment events

## The topics it covers include:

- advanced project management
- managing risk & uncertainty
- implementing strategy
- stakeholder management

## Who is it for?

Spatium is regularly used by:

- senior managers
- project sponsors
- change leaders
- business strategists
- project & program managers
- project team members

as well as Masters and E/MBAs, and executives on business school programs

## Key Outcomes

Participants develop a number of skills, including how to:

- define project success
- manage the early stages of a project
- develop an optimal contract strategy
- plan & control a project
- analyse and manage risks
- judge stakeholder-driven trade-offs
- juggle & integrate multiple disciplines
- take decisions in a complex scenario

## Logistics

- the simulation workshop can be run with anything from 6–200 participants, in a 1 day timeframe
- it can be run with teams in classroom workshops; or in online events with remote participants
- each team needs an internet-connected computer (PC or Mac)

# Why Simulate?

- Developing skills by listening and reading doesn't work
- Today's learners expect more effective methods
- People only develop skills by practising them
- Simulations provide accelerated and risk-free experiences
- It's irresponsible not to when the stakes are high
- Learners can see the crucial links between cause and effect
- Making mistakes in the real world is less likely

“

**I hear and I forget.  
I see and I remember.  
I do and I learn.**

—Confucius

”

“Business schools desperately need to innovate the way they are teaching leadership skills, and the SPATIUM simulation is a radical improvement on the outdated ‘chalk and talk’ approach.”

—Stephen Carver  
Cranfield

“Prendo delivers the SPATIUM project simulation in UCL’s MSc in Strategic Management of Projects: the students find it extremely valuable.”

—Dr Effie Konstantinou  
UCL

“The MPA has delivered over 30 one day workshops based around the SPATIUM simulation; participant feedback is consistently excellent.”

—Manon Bradley  
Major Projects Association

“Spatium is a great way for embedding learning in a fun and engaging manner. We have made it an integral part of the learning pathway for our client-facing project managers.”

—Mark Neller  
Director, Arup
